

6U MilSpec Rugged Enclosure with integrated wheels and tow handle

## EL8000-MCS Edgeline series of rugged cases

### Overview

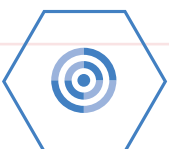

The ultimate in protection for the HPE Edgeline EL8000 Converged Edge System and related mission critical components from the desert to the arctic. Structural rigidity of the case eliminates distortion resulting from high temperature exposure; interchangeable lids and ¼ turn latches replace mismatched rack-mount lids and knuckle busting latches and maintain a watertight fit. Comes standard with two 2" interchangeable lids, integrated wheels and sturdy towing handle.

Taking the Edgeline EL8000 to the edge of extreme environmental and operational conditions is now possible; a viable solution for Military, Federal, and Commercial sectors. The EL8000-MCS from UltraLife is designed to directly support the EL8000 Converged Server series and enables edge computing in the most austere environments and locations.

### Features

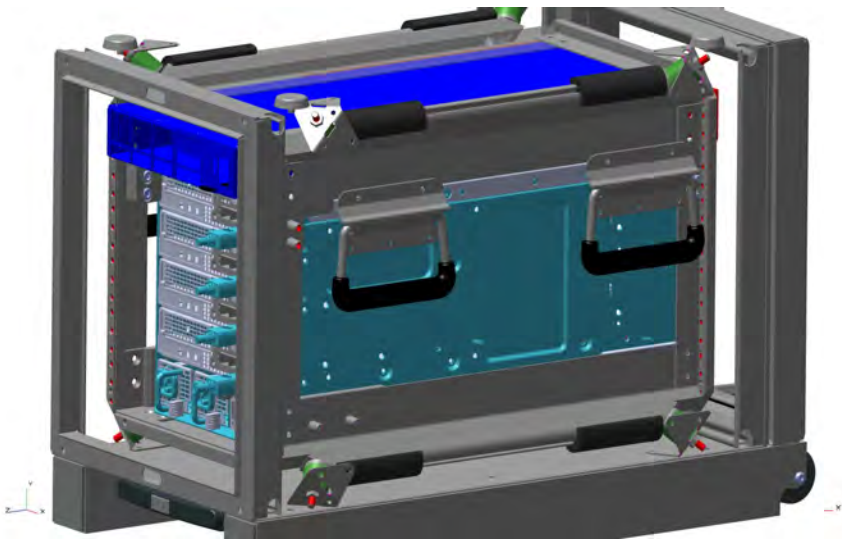

- ▶ **Designed for HPE Edgeline EL8000 Converged Servers**
- ▶ **9.5" Half Rack Mount aluminum case**
- ▶ **Protection class IP 65 through seam-welded housing and lid with peripheral seal**
- ▶ **Impervious to elements: Case withstands temperature range of -238° to 302° F; UV, water, weather and corrosion resistance**
- ▶ **Shock and vibration dampened**
