

# PRODUCT SUMMARY GUIDE

BATTERIES, POWER SYSTEMS, CHARGERS & CABLES  
FROM ULTRALIFE

**ULTRALiFE**®  
**WE. ARE. POWER.**®

The logo features the brand name 'ULTRALiFE' in a bold, italicized sans-serif font. The 'ULTRA' portion is black, while the 'LiFE' portion is grey. A small red square is positioned above the 'i' in 'LiFE'. A registered trademark symbol (®) is located to the right of the brand name. Below the brand name, the tagline 'WE. ARE. POWER.' is written in a bold, italicized sans-serif font, with a registered trademark symbol (®) at the end. The entire logo is centered within a decorative horizontal band that has a background of overlapping grey hexagons and is bounded by dashed lines above and below.

# FIND YOUR SOLUTION

## CELL MANUFACTURER

Ultralife has over 20 years of experience in Lithium chemistry cell manufacture. We continue to develop and manufacture cells with the world's leading energy densities and performance properties in both Lithium Manganese (CR) and Lithium Thionyl Chloride (ER) chemistries.

## STANDARD CELLS, BATTERIES, AND CHARGERS

We offer an array of standard cells, batteries and chargers, as well as other products to help decrease your development time and compress your time to market.

## BATTERY DESIGN AND ASSEMBLY

We specialize in battery pack design and manufacture for demanding applications worldwide for the most stringent applications, we can design a solution to meet your requirements! Our experts work with a variety of chemistries and OEM cell manufacturers to offer various options for your needs, whether it is Lithium-Ion, Nickel Metal Hydride, Lithium Iron Phosphate, or other battery chemistries. Do you need a private labelled product? We provide many private labelled battery and charger products to our partners.

## CHARGER DESIGN AND ASSEMBLY

Need a battery charger? Does your battery need an integrated charger? We can design simple, to extremely complex, bulk charging systems for your needs.

## ENERGY STORAGE

We design and provide systems for peak shaving and bulk energy storage applications.

## WORLDWIDE PRESENCE

With multiple manufacturing facilities around the globe, we can work to eliminate logistics issues by offering various points of manufacture and warehousing.

# RECHARGEABLE

Ultralife's rechargeable batteries offer off-the-shelf convenience and high reliability for quick integration into your end-user application. Many operate over a wide temperature range and are ideal for rugged military use where equipment is required to operate in extreme conditions.

RECHARGEABLE

# NON-RECHARGEABLE

Ultralife Battery and Energy products group manufacture various non rechargeable cell sizes in several chemistries including Lithium Manganese Dioxide and Lithium Thionyl Chloride, with some of the highest energy densities available.

“

The world's longest lasting  
9 Volt battery

”

NON-RECHARGEABLE

**ULTRALIFE**<sup>®</sup>  
9 VOLT LITHIUM BATTERY

# 9 VOLT

Ultralife 9-Volt is a consumer-replaceable battery that lasts up to 5 times longer than ordinary alkaline 9V batteries and 10 times longer than carbon-zinc batteries. A 10-year service / shelf life makes the Ultralife 9-volt battery the choice for major smoke alarm manufacturers for their premium lines of 10-year ionization-type smoke alarms.

# ER CYLINDRICAL - LITHIUM THIONYL-CHLORIDE

Ultralife Lithium Thionyl Chloride cells have the highest energy density & performance characteristics of all Lithium based battery chemistries. The passivation layer allows for long storage periods with minimal loss in cell capacity - a perfect choice for long term backup & remote metering.

# BLEND CELLS - Li-CFx / MnO<sub>2</sub>

Ultralife's newest primary cell technology improves upon lithium manganese dioxide chemistry by providing almost a 50% increase in both capacity and shelf-life, whilst also reducing initial suppression of cell voltage that is typical of pure Cx chemistries due to passivation during storage.

# POWER SYSTEMS

Ultralife's rechargeable batteries offer off-the-shelf convenience and high reliability for quick integration into your end-user application. Many operate over a wide temperature range and are ideal for rugged military use where equipment is required to operate in extreme conditions.

“  
Reliable power in  
unreliable places”
