

Battery & Energy Products

Providing power and
energy products around the world...

Today, so much can depend on your battery...

First Responders

- Defibrillators
- Man-Down Sensors
- Personal Safety Radios
- Emergency Lighting

Search & Rescue

- Emergency Tracking Devices
- Enhanced Vision
- Communications

Metering

- Handheld Meters
- Smart Meters
- Utility Meters
- Auto Meter Readers

Telemetry & Telematics

- RFID Tracking
- E-Call Systems
- Asset Tracking/Theft Prevention
- Locator Beacons

Medical

- Breathing Assist Devices
- Circulatory Pumps
- Blood Analyzers
- Patient Monitoring

Government & Defense

- Enhanced Vision
- Unattended Sensors
- Modernized Soldier
- Communications
- Smart Munitions

Energy Storage

- Peak Shaving
- Backup Batteries
- Alternative Energy

Home Security & Safety

- Smoke Alarms
- Carbon Monoxide Detectors
- Intrusion Sensors
- Invisible Fencing

Cell Manufacture

Ultralife has over 20 years of experience in Lithium chemistry cell manufacture. We continue to develop and manufacture cells with the world's leading energy densities and performance properties in both Lithium Manganese (CR) and Lithium Thionyl Chloride (ER) chemistries.

Standard Cells, Batteries, and Chargers

We offer an array of standard cells, batteries and chargers as other products to help decrease your development time and compress your time to market.

Battery Design and Assembly

We specialize in battery pack design and manufacture for demanding applications worldwide for the most stringent applications, we can design a solution to meet your requirements! Our experts work with a variety of chemistries and OEM cell manufacturers to offer various options for your needs, whether it is Lithium-Ion, Nickel Metal Hydride, Lithium Iron Phosphate, or other battery chemistries. Do you need a private labeled product? We provide many private labeled battery and charger products to our partners.

Charger Design and Assembly

Need a battery charger? Does your battery need an integrated charger? We can design simple, to extremely complex, bulk charging systems for your needs.

Energy Storage

We design and provide systems for peak shaving and bulk energy storage applications.

Worldwide Presence

With multiple manufacturing facilities around the globe, we can work to eliminate logistics issues by offering various points of manufacture and warehousing.

ISO 9001:2008 and 14001:2004 compliance
